

CUMULATIVE INDEX 1999

Volume 16

| | |
|---------|--|
| January | CLINICAL NEUROLOGY, pages 1-213 |
| April | RHEUMATOLOGIC DISORDERS OF THE FOOT AND ANKLE, pages 215-397 |
| July | POSTERIOR TIBIAL TENDON DYSFUNCTION, pages 399-582 |
| October | FOOT AND ANKLE TRAUMA, pages 583-833 |

Note: Page numbers of article titles are in **boldface** type

- ABC syndrome, in erythromelalgia, 64
- Accessory navicular, posterior tibial tendon dysfunction and, 571-573
- Acetylcholine receptor antibodies, in myasthenia gravis, 56, 74
- Achilles tendon, anatomy of, 617-618
- rheumatoid arthritis of, 380
- rupture of, 229, **617-630**
- diagnosis of, 622-625
- etiology of, 618-619
- risk factors for, 619-621
- treatment of, 625-628
- Achilles tendon reflex, evaluation of, 15
- Acrocyanosis, symptoms of, 64
- Acroosteolysis, radiographic evaluation of, in systemic lupus erythematosus, 250
- Action potentials, in electromyography, 24
- Alcoholic neuropathy, 92
- Allodynia, in neurologic disorders, 51
- Ambulatory aids, in rheumatoid arthritis, 382
- Amplitude, in nerve conduction studies, 22
- Amyloidosis, peripheral neuropathy in, 85
- Amyotrophic lateral sclerosis, diagnosis of, 69
- symptoms of, 57-58
- versus compression and entrapment neuropathies, 122-123
- Ankle, anatomy of, 680-684
- chronically mechanically unstable, surgical management of, 670-671
- foot and, trauma to, **583-812**
- fracture of, with complete syndesmotric disruption, 682, 683
- lateral, injuries of, evaluation and management of, **659-678**
- ligaments of, 660
- malleolar fractures of. *See Malleolar fractures.*
- physeal fractures of, **793-818**
- classification of, 796-799, 800
- clinical evaluation of, 801-803
- closed reduction of, 805-806
- complications of, 806-810
- Dias and Tachdjian classification of, 799, 800
- incidence of, 795
- pathophysiology of, 795-796
- Peterson classification of, 798
- radiographic evaluation of, 803-804
- Salter and Harris classification of, 796-797, 799
- surgical treatment of, 806
- treatment of, 804-810
- syndesmosis of, anatomy of, 673, 682
- complete disruption of, in fracture of ankle, 682, 683
- evaluation of, in malleolar fractures, 709-710
- fixation of, in malleolar fractures, 710-712
- in normal ankle function, 683-684
- injuries of, 673, 682-683
- transitional physeal injuries of, 801, 802, 803
- Ankle-foot orthoses, for posterior tibial tendon dysfunction, 447-450
- in neuromuscular disorders, 163-169
- ankle joints for, 163-166
- classic double upright, 163
- plastic, molded, 167-169

Ankle-foot orthoses (*Continued*)

- Scott-Craig, 164
- split stirrup, 164-165
- uses of, 166
- veteran's administration posterior clasp, 163
- in patellar tendon bearing braces, 170-171
- Ankle joint, biomechanics of, 266-267, 680, 684-685
- rheumatic disease of, pathomechanics of, 266-267
- rheumatoid arthritis of. *See Rheumatoid arthritis, of ankle; Rheumatoid arthritis, of tibiotalar joint.*
- Ankle sprain(s), clinical history and examination in, 661-663
- high, 673-674
- incidence of, 659
- injuries mimicking, 659
- lateral, acute, classification of, 667-668
- anatomy and pathomechanics of, 660-661
- associated pathology of, 662
- management of, conservative, 668-669
- surgical, 670-673
- Ankle tilt board, 668, 670
- Ankylosing spondylitis, radiographic evaluation of, 231
- treatment of, 280-281
- Ankylosis, radiographic evaluation of, in psoriatic arthritis, 237, 239
- Antalgic gait, in leg pain, 148
- Anterior drawer test, in lateral ankle injuries, 663, 665
- Anterior horn cell diseases, symptoms of, 57-58
- Anterior tarsal tunnel syndrome, 118
- Anterior tibial tendon, split, in posterior tibial tendon augmentation (Cobb procedure), 471-477
- Antibiotics, in gunshot wounds of lower extremity, 612-613
- in puncture wound of foot, 593-595
- in rheumatoid arthritis, 280
- AO classification, of pilon fractures of distal tibia, 751, 752, 753
- Aorta, diseases of, neurologic symptoms in, 61, 63
- Arches, flattening of, in rheumatoid arthritis, 328
- Areflexia, in neurologic disorders, 53
- in peripheral neuropathy, 53
- in Roussy-Lévy syndrome, 91
- Arthralgia, definition of, 260
- Arthritis, definition of, 260
- degenerative, radiographic evaluation of, 245-248
- in triple arthrodesis, 544-546
- inflammatory, types of, 225
- posttraumatic, following calcaneal fractures, 787-788
- psoriatic, radiographic evaluation of, 234-235, 237-239
- treatment of, 281-282
- rheumatoid. *See Rheumatoid arthritis.*
- Arthrodesis, calcaneocuboid. *See Calcaneocuboid arthrodesis; Triple arthrodesis.*
- double, in posterior tibial tendon dysfunction, 546-547
- in athletes, 568-570
- in rheumatoid arthritis, ankle, 385-386
- calcaneocuboid, 320, 322-324
- first metatarsophalangeal, 297-298
- interphalangeal, 294
- metatarsocuneiform, 317-321
- navicular-cuneiform, 316-317
- subtalar, 333-334
- talocrural, 385
- talonavicular, 313-316, 331-333, 383
- tarsometatarsal, 317-321
- tibiotalar. *See Rheumatoid arthritis, of tibiotalar joint.*
- triple, 313, 334-335, 383-384
- primary, in comminuted calcaneal fractures, 763
- in severe pilon fracture, 763
- subtalar. *See Subtalar joint, arthrodesis of.*
- talocalcaneal, in triple arthrodesis. *See Triple arthrodesis.*
- talonavicular. *See Talonavicular arthrodesis.*
- triple. *See Triple arthrodesis.*
- Arthroereisis, of subtalar joint, 413-414
- MBA implant in, 481-490, 503-504
- Arthrography, of ankle, in lateral ankle injuries, 665-666, 667
- Arthroplasty, in rheumatoid arthritis, ankle, 342, 386
- first metatarsophalangeal joint, 296-297
- in hallux valgus, 368-369
- metatarsal head, 295-297
- Arthroscopy, in arthrodesis, ankle, 386
- tibiotalar, 345
- in osteochondral lesions of talar dome, 738, 739
- in rheumatic disease, 261
- Asymmetric axonal polyneuropathy, versus compression and entrapment neuropathies, 121
- Ataxia, cerebellar, 136-137, 147
- sensory, 147-148
- Athletes, posterior tibial tendon dysfunction in, 557-577
- accessory navicular, 571-573
- anatomic considerations in, 558-559
- dislocation, 570-571
- exertional compartment syndrome, 573-575

- tears, 559, 561-569
 tenosynovitis, 559-562, 564-565, 575
 Auranofin, in rheumatoid arthritis, 277
 Aurothioglucose, in rheumatoid arthritis, 277
 Autonomic neuropathy, diagnosis of, 71
 Autonomic neuropathy, in diabetes mellitus, 84
 Avascular necrosis, in triple arthrodesis, 544
 Axes, of joint, 261-262
 Axonotmesis, definition of, 20, 72
 pathophysiology of, 100, 184
 Axon(s), degeneration of,
 electromyography in, 28
 neuropathy of, symptoms of, 53-54
 regeneration of, in nerve injury, 72
 transport in, 19
 Azathioprine, in rheumatoid arthritis, 280
- Babinski's reflex and sign, 52
 evaluation of, 15-16
 Baker's cyst, tibial nerve compression and entrapment in, 107
 Balance, lower extremity axis of, in orthoses, 158-159
 Ballistics, wound. See *Wound ballistics*.
 Beriberi, peripheral neuropathy in, 90
 Berndt-Harty classification, of osteochondral lesions of talar dome, 728, 729
 Bilotti and Dobbs procedure, for rheumatoid arthritis forefoot reconstruction, 292
 Bio-Thesimeter, in sensory examination, 31, 36-39, 42-44
 Biomechanics, of joints, ankle, 266-267, 684-685
 axes, 261
 axis position, 262
 clinical stance, 265-266
 degrees of freedom, 262
 foot motion definition, 261-262
 forces acting on stability, 263-264
 functional adaptation (Wolff's Law), 262-263
 gait cycle, 265
 gait examination, 265-266
 hinges, 261
 hypermobility, 264-265
 in rheumatoid arthritis, of forefoot, 288-289
 metatarsophalangeal, 269
 midtarsal, 268
 neutral position, 263
 planes of motion, 261
 subluxation, 264-265
 subtalar, 267-268
 symmetry, 263
 terminology of, 260
 of metatarsals, 645
 Biopsy, nerve, in peripheral neuropathy, 83
 Blake foot orthosis, 160, 162
 Blisters, fracture, after calcaneal fractures, 771-773
 Block balance testing, in orthoses, 160
 Bone, mineralization of, radiographic evaluation of, in rheumatic disease, 216-217
 in systemic lupus erythematosus, 250
 production of, radiographic evaluation of, in gout, 240-241
 in hemophilia, 248
 in osteoarthritis, 245
 in psoriatic arthritis, 237
 in Reiter's syndrome, 233
 in rheumatic disease, 219, 221, 223
 in rheumatoid arthritis, 227-228
 Bone graft, in arthrodesis, in rheumatoid arthritis reconstruction, 311-312
 in subtalar joint arthroereisis, 413
 in triple arthrodesis, 539-540
 Bone morphogenic protein, in rheumatoid arthritis reconstruction, 312
 Bone scan(s), in osteochondral lesions of talar dome, 731, 732
 in rheumatoid arthritis, 307-308
 in stress fractures, 635, 638
 Boot top neuropathy, 118
 Bradykinesia, in Parkinson's disease, 128-129
 Brain, in postural control, 142
 lesions of, symptoms of, 60
 Brostrom-Gould procedure, in lateral ankle injuries, 671-672
- Calcaneal fractures, 769-791
 classification of, 774-775, 776
 clinical evaluation of, 771-773
 compartment syndrome in, 773
 complications of, 787-789
 extra-articular, 775-778, 779
 fracture blisters after, 771-773
 intra-articular, 779-787
 closed treatment of, 781-783
 mechanism of injury in, 779-780, 781
 surgical treatment of, 783-787, 788, 789
 radiographic evaluation of, 773-775, 776
 Calcaneocuboid arthrodesis, in posterior tibial tendon dysfunction, in double arthrodesis, 546-547, 568-570
 in triple arthrodesis. See *Triple arthrodesis*.
 Calcaneocuboid joint, arthrodesis of, in rheumatoid arthritis, 320, 322-324

- Calcaneus, anatomy of, 769-770
 motion of, in planar dominance, 411-412
 neutral triangle of, 770
 osteotomy of, in midtarsal joint stabilization, 415
 in posterior tibial tendon dysfunction, 417, 491-499
 complications of, 497-498
 goals of, 494-495
 historical review of, 491-492
 outcome of, 492-494
 postoperative management of, 497
 presurgical criteria for, 495
 rationale for, 496
 slide type, 417-418
 technique for, 496-497
 rheumatoid arthritis of, 329
- Calcification, soft-tissue, in calcium pyrophosphate dihydrate crystal deposition disease, 244
 radiographic evaluation of, in calcium hydroxyapatite crystal deposition disease, 243
 in polymyositis, 253
 in rheumatic disease, 224
 in scleroderma, 252
 in systemic lupus erythematosus, 250-251
- Calcium hydroxyapatite crystal deposition disease, radiographic evaluation of, 242-244
- Calcium pyrophosphate dihydrate crystal deposition disease, radiographic evaluation of, 244-245
- CAM ankle joint, for orthoses, 169
- Cancer, paraneoplastic syndromes in, peripheral neuropathy in, 93-94
- Catechol-O-methyltransferase inhibitors, in Parkinson's disease, 131
- Cerebellar disorders, gait disorders in, 136-137, 144-145, 147
- Charcot-Marie-Tooth disease, 91
- Charnley compression device, for tibiotalar arthrodesis, 343-344
- Chisel toe, in rheumatoid arthritis, 365
- Chondrocalcinosis, in calcium pyrophosphate dihydrate crystal deposition disease, 244
- Chorea, in Huntington's disease, 136
- Chrisman-Snook procedure, for lateral ankle stabilization, 672-673
- Clasp-knife phenomenon, in spasticity, 12
- Claudication, in vascular disease, 61
- Clayton procedure, for rheumatoid arthritis forefoot reconstruction, 292
- Clonus, in neurologic disorders, 52
- Cobb procedure, in posterior tibial tendon dysfunction, 471-477
 historical perspective of, 471-472
 indications for, 472
 results of, 473, 476
 technique for, 472-475
- Coiled reserve length, of nerve vascular system, 180, 182
- Collagen vascular diseases, radiographic evaluation of, 249-253
- Collateral sprouting, after neurectomy, 201
- Compartment syndrome, exertional, posterior tibial tendon dysfunction in, 573-575
 in calcaneal fractures, 773
- Compensatory sensation, after neurectomy, 201
- Complex regional pain syndrome, versus compression and entrapment neuropathies, 123-124
- Compression and entrapment neuropathies, 97-125
 anatomic considerations in, 98, 102-104
 classification of, 99-100
 definitions of, 97
 diagnosis of, 72-73
 differential diagnosis of, 120-124
 interdigital, 111-113, 193-195
 pathophysiology of, 98-100
 peroneal, 113-118
 plantar, 27, 110-111
 proximal nerve, 120
 recurrent, 199-200
 saphenous, 119-120
 sural, 118-119
 surgical treatment of. *See Nerve(s), surgery on.*
 tibial, 101, 105-113
- Compression arthrodesis, in rheumatoid arthritis, ankle, 385
 tibiotalar, 343-344
- Compression blade plate fixation, of tibiotalar arthrodesis, 345-346
- Computed tomography, in malleolar fractures of ankle, 701
 in osteochondral lesions of talar dome, 731, 732
 in posterior tibial tendon dysfunction, 562
 in rheumatoid arthritis, 380-381
 of physeal fractures of ankle, 803-804
- Computer-Aided Sensory Evaluator (CASE), in sensory examination, 31, 41-42
- Conduction velocity, in nerve conduction studies, 22-23
- Connective tissue disease, peripheral neuropathy in, 88
- Consultation, neurologic, 2, 10
- Contamination, of gunshot wounds, 608-609
- Coonrad-Bugg trapping, 712
- Cortical sensory function, assessment of, 9-10

- Corticobasal ganglionic degeneration, 134
 Corticosteroids, in rheumatoid arthritis,
 273-275
 preoperative withdrawal of, 341
 Cramps, in motor neuron disorders, 68
 Crystal deposition diseases, radiographic
 evaluation of, 239-245
 calcium hydroxyapatite, 242-244
 calcium pyrophosphate dihydrate,
 244-245
 gout, 239-242
 Cup and saucer appearance, in psoriatic
 arthritis, 237
 Current perception threshold, assessment
 of, 31, 39-41
 Custom-molded shoes, for posterior tibial
 tendon dysfunction, 444
 Cyclosporine, in rheumatoid arthritis,
 278-279
- Dactylitis, definition of, 260
 Danis-Weber classification, of malleolar
 fractures, 686-687
 Deep tendon reflexes, abnormalities of,
 52-53
 assessment of, 14-16, 52
 Degenerative joint diseases, radiographic
 evaluation of, 245-248
 hemophilia, 247-248
 osteoarthritis, 245-247
 Degrees of freedom, in joints, 262
 Dejerine-Sottas disease, 91
 Deltoid ligament, rupture of, repair of, 695
 Demineralization, bone, radiographic
 evaluation of, in rheumatic
 disease, 216-217
 in systemic lupus erythematosus,
 250
 Demyelinating disorders,
 electromyography in, 27-28
 polyneuropathy, versus compression and
 entrapment neuropathies, 120-121
 Refsum's disease, 92
 segmental, 54
 symptoms of, 54
 Dermatomes, 103-104
 in sensory examination, 6-7
 Dermatomyositis, diagnosis of, 77
 radiographic evaluation of, 252-253
 Diabetes mellitus, neuropathic
 osteoarthropathy in, radiographic
 evaluation of, 253-255
 puncture wounds of foot in, 589
 Diabetic neuropathy, 83-85
 autonomic dysfunction with, 84
 classification of, 83
 complications of, 83
 pathogenesis of, 84
 prevalence of, 83
 sensory examination in, Bio-Thesiometer
 in, 38-39
 equipment comparison for, 42-44
 Neurometer CPT/C in, 31, 39-41
 Semmes-Weinstein monofilaments in,
 33-34
 Tactile Circumferential Discriminator
 in, 35
 symptoms of, 84
 treatment of, 84-85
 Dias and Tachdjian classification, of
 physeal fractures of ankle, 799, 800
 Differential diagnosis, in neurologic
 disorders, 49-66
 acrocyanosis, 64
 anterior horn cell, 57-58
 brain, 60-61
 compression and entrapment
 neuropathies, 120-124
 erythromelalgia, 64
 general symptoms and signs, 50-53
 muscle, 55
 nerve plexus and root, 56-57
 neuromuscular junction, 55-56
 peripheral neuropathy, 53-55
 Raynaud's phenomenon, 64
 reflex sympathetic dystrophy, 63
 spinal cord, 58-60
 trench foot, 64
 vascular-origin, 61-63
 Diplegia, spastic, 146
 Disease-modifying antirheumatic drugs,
 275-278
 Dislocation, of joints, radiographic
 evaluation of, in rheumatic disease,
 221
 Distal latency, in nerve conduction studies,
 22
 DMARDs (disease-modifying
 antirheumatic drugs), 275-278
 Dopamine replacement, in Parkinson's
 disease, 130-131
 Double-action ankle joint, for orthoses,
 164-165
 Double arthrodesis, in posterior tibial
 tendon dysfunction, 546-547
 in athletes, 568-570
 Double crush hypothesis, in nerve injury,
 187
 Dowel fusion, in triple arthrodesis, in
 posterior tibial tendon dysfunction,
 537
 Drop foot. *See* Foot drop.
 Drugs, peripheral neuropathy from, 85-86
 Dysesthesia, in neurologic disorders, 51
 peripheral neuropathy, 82
 tarsal tunnel syndrome, 108
 Dyskinesia, in Parkinson's disease, 132
 Dystonia, 134-135

- Edrophonium test, in myasthenia gravis, 56, 74
- Elderly persons, gait in, 149
